

Application of modelling instructions effective from 10 February 2026 in projects

The updated modelling instructions for PSS/E and PSCAD models were published on Fingrid's website on 10 February 2026. These updated versions shall be used as the reference for:

- Those Stage 1 projects, for which specific study requirements are given after 10.2.2026
- Those Stage 1 projects, for which the model is submitted to Oma Fingrid platform first time after 1.9.2026. To be considered as submitted before 1.9.2026, the model shall be accompanied with test list that shows that the model fulfils the SJV/VJV functional requirements.
- Those Stage 2 projects, for which the model is submitted to Oma Fingrid platform first time after 1.10.2026. To be considered as submitted before 1.10 2026, the model shall be accompanied with test list that shows that the model fulfils the SJV/VJV functional requirements. Please note, that the Stage 2 model can be submitted only after the commissioning tests.
